- Member of the European Society of Medical Oncology (ESMO), certified in 1996
- Member of the Italian Association of Medical Oncology (AIOM)
- Member of the European Society of Gynecological Cancer (ESGO)
- Past president of PROFERT (Italian Society for the Preservation of Fertility)

Clinical and Research activities

Fedro Peccatori is a medical and gynecologic oncologist whose clinical activities mainly include diagnosis and treatment of breast cancer, gynecological malignancies and tumors of young adults. He is Director of the Fertility and Procreation Unit within the Division of Gynecologic Oncology in the Department of Gynecology at the European Institute of Oncology, Milan Italy.

His main research projects deal with fertility preservation and counselling in young oncological patients, pharmacological protection of ovarian function during chemotherapy, clinical and molecular characterization of pregnancy associated cancers and research protocols for the treatment of breast and gynaecological malignancies.

In the past, his research interests dealt with hematological malignancies, and he has been involved in the study of malignant lymphomas and autologous and allogeneic peripheral blood stem cell transplantation in solid tumors and leukemias.

He has acted as lecturer in a number of international meetings, and in the last 5 years has taught at Varese, Pavia and Milan University. He has been considered eligible within the 2012 Italian call for Associate Professor in Oncology and in Obstetrics and Gynecology. As past president of PROFERT he has contributed to build up the Italian network of fertility preservation for cancer patients. In 2012 he has received research grants from the Ministry of Health for a project on cancer and infertility (CCM program) He has acted as referee for European Journal of Chemoprevention, Annals of Oncology, The Breast, International Journal of Gynecologic Cancer, PLOS, Lancet Oncology, Ecancermedicalsecience. He's in the editorial committee of Ecancermedicalsecience, Cancerworld, Critical Reviews Oncology Hematology and The Breast. He's part of the ESMO task force Adolescent and Young Adult and ESMO faculty member for breast cancer 2017-2018. At present, he acts as Scientific Director at the European School of Oncology (ESO), where he's in charge of organizing and supervising international courses and masterclasses on different oncological issues.

Grants

CCM 2012 Il paziente oncologico lungosopravvivate. Ridurre il rischio di complicanze riproduttive. Un modello per le pratiche assistenziali per la preservazione della fertilità. 40.000 euro

FORECEE 2015 Female cancer prediction using cervical omics to individualise screening and prevention 231.000 euro
